*Re: Teligent, Inc.'s IntraLATA Toll Dialing Parity Plan, as Required by the  
Recent Federal Communications Commission Order*

Dear Secretary Waddell:

Enclosed herewith for filing, please find Teligent, Inc.'s ("Teligent") intraLATA toll dialing parity plan, pursuant to the Federal Communications Commission's recent order.<sup>15</sup> That order required all carriers to file with each state commission a copy of its intraLATA toll dialing parity plan by April 22, 1999.

An additional copy of this filing is enclosed. We ask that it be date-stamped and returned in the envelope provided. Should any questions arise regarding this filing, please do not hesitate to contact the undersigned at (703) 762-5430.

Respectfully submitted,

Carly Tolchin

4/22/99 -  
Talked to Carly.  
Will forward \$25<sup>00</sup> Filing Fee

<sup>15</sup> In the Matter of the Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, *Order*, CC Docket No. 96-98, NSD File No. 98-121 [rel. March 23, 1999].

**TELIGENT, INC.**  
**DIALING PARITY PLAN**

**I. OBJECTIVE/PURPOSE**

In compliance with the Federal Communications Commission's recent IntraLATA toll dialing parity order,<sup>1</sup> Teligent, Inc. ("Teligent") files its plan for implementing intraLATA equal access in areas of the State in which it is authorized to provide service. Under the plan, Teligent's customers will be able to choose an interexchange carrier ("IXC") from a list of IXCs that are Teligent access customers. The customers' intraLATA toll calls will then be routed to the chosen IXC automatically, without the use of access codes.

**II. IMPLEMENTATION SCHEDULE**

Prior to launching service in a state, Teligent notifies as many IXCs as possible regarding its planned service launch and files an access services tariff, setting forth the rates, terms and conditions of its exchange access service offerings.

**III. CARRIER SELECTION PROCEDURES**

Upon launch of its services, Teligent implements a 2-PIC carrier selection methodology within the State. With the 2-PIC methodology, customers are able to presubscribe to one IXC, including Teligent, for interLATA toll calls and to presubscribe to the same or a different IXC for intraLATA toll calls. Customers are informed of the opportunity to choose both an intraLATA and interLATA PIC. At the customer's request, Teligent will provide a list of IXCs that are available for PIC selection. That list will be presented in a competitively neutral manner.

Customers who do not affirmatively choose an intraLATA toll carrier will be identified within Teligent's system as "no-PIC." Until making an affirmative intraLATA toll PIC selection, these customers will be required to dial an access code in order to place intraLATA toll calls.

---

<sup>1</sup> In the Matter of the Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, Order, CC Docket No. 96-98, NSD File No. 98-121 [rel. March 23, 1999].

#### **IV. CARRIER NOTIFICATION**

Prior to launching service in a state, Teligent contacts as many IXC's as possible regarding the opportunity to provide toll service to Teligent customers. Interested carriers are asked to submit to Teligent an Access Service Request ("ASR") form for each switch to which it desires access. Teligent lists its switches available for exchange access service in either NECA Tariff No. 4 or Teligent's Tariff FCC No. 3. Once Teligent receives and processes an IXC's ASR, that carrier is added to the list of IXC's available for customer selection.
